Other info:

### Location

Lectures and dinners will be held each evening at USU Moab at 1850 S. Aggie Blvd. just off of HWY 191. Days are spent in the field on deserts, foothills, and mountains so bring appropriate attire and water bottles. Camp will be held at Warner Lake in the La Sal Mountains. Participants will need to bring their own camping supplies and toiletries. Showers will be provided at USU Moab, there are toilets available at the campground.

### Instructors

Instructors come to Range Camp from USU, SUU, NRCS, BLM, UDNR, SITLA, USFS, UDAF, and the Private Sector.

Society  
for  
Range  
Management

Extension  
UtahStateUniversity

# Win an expense paid trip to SRM 2025 in Spokane, Washington!

## Who should attend this camp?

Students who have an interest in learning about natural resource management should attend this camp. The Utah Range Camp is unique in providing students with a complete picture of the natural resources system (soil, water, plants, and animals), with an emphasis on the use and management of Utah's rangelands. The knowledge obtained at the Camp provides all participants with a competitive edge at state, regional, and the national level rangeland judging contests. Range Camp is open to high school students from Utah, ages 14 - 18. Students who graduated in 2024 may attend the camp, but are not eligible for individual awards. Range Camp will accept the first 25 students who register and make a payment of \$200.00.

## How to Apply

Register online with this QR Code or contact Cory Farnsworth 435-797-1485 or 435-210-0212  
cory.farnsworth@usu.edu

## Refunds

No refunds will be issued after July 8, 2024 because food and materials will have been purchased by this time. The \$200.00 fee helps support the camp by defraying costs. Camp is partially funded by STEM, WSARE, and SRM.

## Tentative Schedule

### Monday July 8

Arrive at USU Moab by 1:00pm  
Afternoon is spent on camp orientation; learning basics of rangeland management; rangeland soils, rangeland plant growth and development, and instruction of plant collection. Camp will be set up at Warner Lake after dinner.

### Tuesday July 9

Morning spent studying desert rangelands, learning and identifying plants, plant identification test. Afternoon spent studying foothill rangelands, use and management, rangeland improvements, livestock, wildlife, and watershed management; learning and collecting plants, plant identification test. Evening spent working on plant collections and notebooks, studying domestic livestock management practices.

### Wednesday July 10

All day spent studying mountain brush and mountain grassland rangelands, learning to identify important poisonous plants, measuring forage utilization, rangeland improvements, livestock, wildlife, watershed, and recreation management, riparian habitat management. Evening spent working on plant collections and notebooks, studying domestic livestock management practices.

### Thursday July 11

Practice FFA CDE, finish plant presses and journals, oral presentations.

### Friday July 12

Camp clean up. Lunch at USU Moab, announcement of winners, and depart for home at 12:00 noon.

## Personal Information

If you have any allergy, diet or other personal needs that the camp staff should know about, please contact Cory Farnsworth regarding these needs before July 8 2024.

## Awards/Recognition

Camp participants compete for the Top Individual Award. The top two campers with the best overall scores (plant collection, journal, plant identification tests, and an oral presentation) will win an all-expense paid trip to the High School Youth Forum at the International Society for Range Management meetings which will be held in Spokane, Washington. Last years winners are Brooklin Goble, and Sydney Bosh.

**Deadline to Register: Monday, July 8, 2024**

**Please Register Online and then send individual application information to Cory Farnsworth at [cory.farnsworth@usu.edu](mailto:cory.farnsworth@usu.edu). Or text a picture of the application to 435-210-0212.**
